## **Ultimate Rally Race Rules**

1. Any front wheel drive car or mini van will be allowed, other than late 70's and very early 80's Cadillacs and Buicks (NO BOATS). Later model Cadillacs and Buicks are allowed. AWD vehicles permitted, as long as rear drive shaft is removed.
2. Cars must have a roll bar/derby bar welded and constructed out of steel to help protect the driver in the event of a roll over. Cars will be inspected upon arrival. If your roll cage appears to be made out of unsafe materials (steel fence posts, conduit, hedge posts, etc) you may be told to fix it or not be allowed to compete in our track events.
3. Cars must have all exterior plastic removed.
4. Cars must have all glass completely removed prior to arriving at event.
5. Cars must have DOT approved tires.
6. Cars must have a number painted on both sides as well as a roof mounted vertical number large enough to see from the grandstands and score tower.
7. Helmets are required.
8. Passengers are not allowed.
9. No Attitudes. Rubbing is racing however this is NOT a demo derby. Overly aggressive driving will have you removed. Pushing and shoving to gain position is allowed.
10. Doors must be welded or chained shut.
11. Bumper modifications are allowed, however if we feel they are designed to tear up tires, do damage to other cars or not attached well you may be asked to remove them.
12. Leave gas tank & battery in stock location. Fuel cells are not required.

### **Suggestions and Tips**

1. Interior and exterior door bar is recommended.
2. Factory seat belts and seats will be allowed.
3. Factory interior can stay in the car.
4. Remove or disable driver's side air bags.
